

Want to achieve the best results at a prime? Do it with PRIMEQUEST®!

With the FUJITSU Servers PRIMEQUEST 3800B2 & 3800E2, even complex and mission-critical and Business-critical applications are easy to manage. Both provide the basis for real-time analytics for better business decision-making.

According to an Accenture study ...

... **79% of enterprise executives** agree that companies that do not embrace Big Data will lose their competitive position and could face extinction

... **83 % have pursued Big Data** projects to seize a competitive edge.

Who uses it?

Manufacturing, Waste Management: Sabesp

Problem: Sabesp needed a modern infrastructure with greater processing power.

Solution: Twenty PRIMEQUEST servers most suited for Sabesp's infrastructure requirements.

Banking: Halyk Bank

Problem: Halyk Bank needed servers to work 24/7 to keep customer databases running smoothly.

Solution: FUJITSU PRIMEQUEST servers that guarantee business continuity and a high system utilization.

FUJITSU Servers PRIMEQUEST 3800B2 & 3800E2:
 high volume, high value business-critical and mission-critical workloads in big data analytics environments

... transactions demanding workloads and consolidation.

... In-memory databases.

... high density.

... High capability virtualization.

What exactly do you get?

Main features of the PRIMEQUEST 3800E2

The FUJITSU Server PRIMEQUEST 3800E2 is purpose-built to optimize efficiency while maximizing performance and uptime in the most demanding mission-critical environments.

8x Intel® Xeon® Platinum/Gold processors, up to 224 cores

Huge memory capacity

Up to 56 PCIe I/O expansion slots

Compact 7U form-factor

"Glueless" design, no external UPI cables

Economic scaling from 2 to 8 sockets

Main features of the PRIMEQUEST 3800B2

The FUJITSU Server PRIMEQUEST 3800B2 is the prime system for business-critical computing that offers superior performance and reliability with optimized economics.

8x Intel® Xeon® Platinum processors, up to 224 cores

Huge memory capacity

16 PCIe 3.0 expansion options

Compact 5U form-factor

Economic scaling from 2 to 8 sockets
