

Accelerate your business with multi-cloud IT infrastructure

Nutanix™ Enterprise Cloud on PRIMERGY®

More agility

Deploy systems faster

Improve scalability

More resilience

Save money

What do organizations expect of infrastructure that spans multiple types of clouds?

Can a unified infrastructure approach **really** deliver?

Managing across different clouds can be costly and confusing...

Better to go with an enterprise cloud that spans them all

Take the easy way with **multi-cloud capable** Nutanix Enterprise Cloud on PRIMERGY:

- Ramp across private, public and edge clouds fast
- Reduce storage costs
- Simplify management
- Grow as you go

What is Nutanix Enterprise Cloud on PRIMERGY?

A multi-cloud, multi-hypervisor infrastructure with high performance, energy-efficient Fujitsu PRIMERGY standard x86 servers combined with software-defined compute, virtualization and storage technology with built-in data services for application orchestration, data protection, space efficiency and security.

Six reasons to invest in Nutanix Enterprise Cloud on PRIMERGY

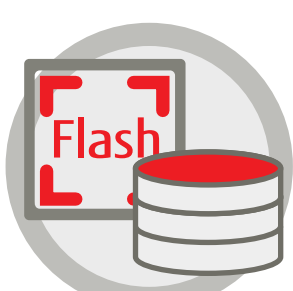

- #1** **Start FAST**
Deploy cluster in under 15 minutes
- #2** **Get brilliant performance**
250,000+ IOPS per server
- #3** **Mitigate risk**
Built-in resiliency across clouds, clusters, nodes and components
- #4** **Increase capacity**
Up to 4x greater storage efficiency
- #5** **Manage easily**
Single console monitoring with simple one-click management
- #6** **Scale to size**
Scale to an endless number of systems with unlimited storage

With Nutanix Enterprise Cloud on PRIMERGY, you can

Reduce cost

All-in-one system eliminates cost of external storage environment: storage arrays, SAN switches, management tools and staff.

Increase storage efficiency

Set up a tiered storage architecture to keep hot data on solid state drives, and colder data on hard disk drives with lower cost per gigabyte.

Speed up your applications

Deliver a high-performance, responsive virtual IT infrastructure that provides consistent IOPS with sub-millisecond response.

"Nutanix has enabled us to build a highly available stack for mission-critical workloads that is easy to understand. We wanted to deploy a solution that is so simple to operate that customers could create their own VMs for a project, or expand their environment without our help. We get that by using Nutanix."

Joep Piscaer
CTO of OGD ict-diensten

WHAT OUR CUSTOMERS SAY
